This beautiful string art piece was created by the twenty students of The Hill School's 2020 class. Vibrant colors were used over a black velvet shrouded background to represent the diverse and bright minds of our second graders. The design was chosen based on the class bird studies and the ancient symbolism of wisdom and knowledge. Mounted in a modern frame, this piece would be a handsome, yet fun, addition to an office or study wall.

415. A CIVIL WAR 1840 CALVARY SABER

History buffs and weapon enthusiasts, we have a Civil War, F. Horster US Model 1840 Heavy Cavalry Saber with Scabbard circa 1849. Many swords by this German firm were imported before and during the Civil War and were carried by Cavalry units of both the Union and the Confederates. The Model 1840 was designed for slashing and because of its heavy flat-backed blade, was given the nickname "Old Wristbreaker." General Nathan Bedford Forest of the Confederacy had both edges of his sword sharpened to increase combat effectiveness. This saber is original including the grip wrap and wire and has import marks stamped on the ricasso. The scabbard is in very good plus condition as well. An ornate gilded version of this earlier sword was used by General Philip Sheridan during the Civil War. A true collector's item.

422. AMERICAN BUCKBOARD WAGON

This early 20th Century American buckboard wagon has been lovingly restored, repainted and filled to the brim with spring plantings. By the mid-1800's, Americans had developed the versatile buckboard. It was a utilitarian commercial delivery horse drawn vehicle and could be used with single, pair or four horses depending on the load to be delivered. It had four wheels and two axels, and usually had one seat for two people, although some buckboards did have two seats. The buckboard we have up for bid tonight was probably driven by a woman/child and single pony combination due to the size and amount it could hold. It was most likely an egg or vegetable wagon. This buckboard was once a fully functional driving cart, but for now, filled as it is with these beautiful plants, it should only be used as a fabulous decorative accent in your country garden. This handsome and perfectly restored buckboard is a real treasure.

425. A COLT 1851 NAVY REVOLVER

The Colt 1851 Navy Revolver is a cap and ball percussion revolver that was designed by Samuel Colt between 1847 and 1850 and was one of the most commonly used sidearms during the American Civil War. Used by Union and Confederate troops throughout the War, Colt first called this a Revolver Ranger model, but the designation Navy quickly took over. It remained in production until 1873, when revolvers using fixed metallic cartridges came into widespread use. The list of famous "Navy" users is very extensive, and includes to name a few, Wild Bill Hickok, John Henry "Doc" Holliday, Richard Francis Burton, Robert E. Lee, Bully Hayes, Ned Kelly, Quantrill's Raiders and most Texas Rangers prior to the Civil War and fictionally, Rooster Cogburn. A real treasure for a collector.

The Columbia Valley AVA is considered the "mother-ship" and these areas produce the grapes used by the top vintners. Your 53 bottle wine cooler package contains a selection of wines that come from the premium vineyards within the AVAs, the majority of which carry a rating of 85 and above.
