Conversation Starters

How many cans of peas did the class collect?

What are the Magic C letters? Can you show me how to make them?

What are the stop signs when you are reading? Can you find some on this page?

What were some of the things that the Pilgrims brought with them on the Mayflower? What have you learned about how they ate their meals and cooked their food?

Can you show me some of the moves that CatMan was teaching you? Can you do them? It takes a lot of focus!

Let's look at your math booklet. You can finish a page or two that you didn't get to in class.

If everyone in our family had two turkeys, how many turkeys would there be in all?

Good to Note

Here are a couple of recommendations for night time reading:

Math for All Seasons by Greg Tang

The Greedy Triangle by Marilyn Burns

Upcoming Star Students

Nov. 16---Ava

Nov. 30---Abby

Dec. 7---Zoey

Star Student

Patrick likes to play golf and he has a chocolate lab named Chip.
