

First Grade Buzz

November 3, 2016

Conversation Starters

Can you draw a trapezoid? A triangle? A rhombus? How about a square and a rectangle?

What is in your nature cabinet so far?

How many cans of peas have we collected?

Tell me about the story you are writing about yourself. What else could you add to it?

Where is your new table/study station? How is that working? Are you able to do your best work there?

What is the Chunky Monkey strategy? What chunks do you know really well?

What songs are you learning in music class? Do you know the words to Thanksgiving Time?

Why did we watch an episode of the Munsters? (We clean up to the theme song of this 1960s black and white tv sit-com and the children earned 20 Teacher Thank You tallies!)

Star Student

Gregory takes capoeira lessons, a Brazilian martial arts.

Upcoming Star Students

November 7—Palmer

November 14—Micah

November 28—Cooper

December 5—Kaelyn

December 12—Charlie

Good to Note We are counting the cans of peas that are to be donated to the Thanksgiving food drive. There is a lot of math surrounding the collection. If everyone brings in two cans, how many will we have? If we have 8 cans, how many people brought in cans? How many more do we need to reach 10? 20?
