Great Conversation Starters

Can you name the different regions of Virginia? Do you remember what each is known for?

Tell me about taking pictures of trees to enter the Middleburg Arbor Day contest. What did you write about your tree?

Let's do some subtraction problems. If Mrs. Price had 16 cookies for our class and only 14 children were at school that day, how many cookies would she get to eat?

Ms. Austin found 24 pencils and crayons left on the floor. 9 of them were crayons. How many pencils were left on the floor?

What have you shared during the "What's the News?" greetings this week? Do you remember anything your classmates have shared?

Do you know the names of any of these pictures?
(Hints: One is the Virginia state bird and the state tree. The pink flower is getting ready to bloom on our walkway by the recess gate. The purple flowers are outside the music room.)

Star of the Week

Gavin loves sports especially soccer! He also loves his dogs. He ran in the Apple Blossom Race last year.

Mentoring

This week we played Five in a Row Subtraction and Roll and Record Subtraction with our mentors. We also shared our published books with them.
