

# SECOND GRADE NEWS

November 8, 2018

## NOTES

- ⇒ On Friday, Nov. 30 we will go to Airlie as part of our Science curriculum. The entire trip is outdoors so please dress your child accordingly.
- ⇒ If you are able, please send in **two cans of green beans**. The Student Council is collecting foodstuffs to create Thanksgiving baskets for those less fortunate. The collection box is now outside our classroom. Thank you to those that have already sent in their cans!

## Weekly Topics

Each week we prepare topics of conversation to have with the students. These topics revolve around challenges, friendships, recess activities, and ways to work successfully as a team. We pose the topic and ask leading questions; the students respond and carry on debates and discussions with very little prompting. In effect, the students are learning to talk openly about challenges and devise solutions that are fair and equitable to all. This week we are discussing strategies as to how we can better respond to directions and what to do when we don't follow directions. Our students are full of great ideas!

## Questions

Show me how to draw a songbird using shapes.

Let's see the Eighth grade play, **Seussical Jr.**, this weekend!

Which geoblock has 6 equal faces?

Draw a hexagon!

What was challenging in Sports class today?

What are you painting in Art class?

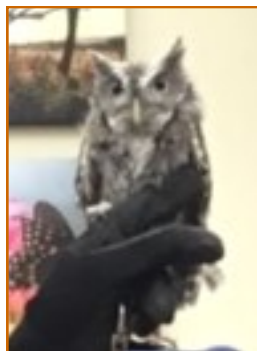

Can you count to 100 by tens in Spanish?
